### **NOTE ON PRICE VALIDITY PERIOD:**

We will state on our price list a validity for 60 days from the quotation date and, once orders are in place, will need a two-month notice for any change to take effect.

However, in practical terms, you can consider this as a "conservative legal statement", which can protect us in case of abnormal fluctuations of labour costs, raw material supply, political situations etc. In this light, it has to be considered that Aloe Vera has its roots in countries economically under development, where stability could still be upset by unforeseen circumstances, at relatively short notice.

As a normal, standard practice, aside from exceptional events, our prices can be considered stable over a period of at least one year.
